

TECHNICAL DATA

- Conductor: Twin Conductor
- Output: 230v | 150W/m²
- FEP. Fluoropolymer Inner, PVC Outer Insulation
- Appearance: Black Mesh, Blue Cable
- Mat Width: 500mm (0.5m)
- Cable Power: 12W/m
- Cable Centres: 80mm
- Cable Diameter. 3.6mm
- Certificate: UKCA CE and ROHS
- Warranty: 25 Years

ELECTRIC MAT

OVERVIEW

The KomMat150 is one of the easiest floor heating systems to install on the market today, plus they are equipped with a slim cable of just 3.6mm thick. They are made up of twin conductor, single-lead elements and because they're bonded onto an adhesive mesh mat, they stay flat as soon as they're laid down, making installation quick and easy. Available in a range of sizes, suitable for both large and small spaces.

KEY FEATURES

- Designed for feel-good comfort or secondary heating.
- Ideal in any part of the house.
- Suitable under ceramic tile, slate, terracotta, stone, limestone or marble
- Fully adhesive backed mesh mat.
- Available from 1m² to 12m².
- Exceeds international standards.
- No electromagnetic fields.
