

TECHNICAL DATA

- Output Up to 77W/m²
- Pipe Centre: 180mm
- L1000 x W180 x D16
- Thickness 0.5mm
- Suitable for 15 & 16mm UFH Pipe
- Fixed with Stapler

UFH PLATE SINGLE GROOVE FFB180MM

OVERVIEW

The Komfort Fit From Below FFB 180mm J Plate Joists Plated System Suspended Floor J Shape Aluminium Underfloor Heating Fit from below (FFB) Spreader Plate are designed to be fitted beneath the floorboard. These plates can also be used with a FFB 180 Double Groove to effectively create a triple groove fit from below plate. The J plate is designed for multiple joist spacings, allowing underfloor heating pipes to be installed at a variety of pipe centres by overlapping the plates where necessary, each plate will allow the pipe to easily clip in to position.

KEY FEATURES

- Easy to install.
- Only 0.5mm in thickness.
- High output up to 77W/m².
