- Pipe Centres: 50mm increments.
- Each Panel will cover approx. 1m²
- Ideal for use with heat pumps

CASTELATED FLOOR TRAY

OVERVIEW

Introducing the Komfort Castellated Floor Tray, constructed of recycled materials and designed to hold UFH pipes securely in place both before and during the pouring of floor screed, these innovative trays ensure your underfloor heating system is installed with accuracy and reliability, delivering consistent, efficient warmth throughout your space.

KEY FEATURES

- Easy to install.
- Minimum amount of waste.
- Eliminates pipe contact with insulation.
